

International Underwriting Association: Market Committees

The IUA runs many market committees catering for a full range of insurance and reinsurance business interests. Each group may discuss market intelligence, liaise with regulators, review market wordings, organise speaker presentations and debate with other industry organisations.

Participation is warmly welcomed from all member companies. To find out more about the work of an individual group and nominate a representative from your company, please get in touch.

Regular competition law training sessions are available for all members.
